

## **REPORT ON SCIENTIA EXHIBITION**

The scientia club of Soundarya composite PU College organized the science exhibition for the first and second year PU students on 16<sup>th</sup> November 2023.

The exhibition witnessed great enthusiasm and blooming participation from students who had unique opportunity of exploring as well as expressing their creative scientific ideas in the form of activities, models and projects. The event gave a direct hands on experience to students wherein they to translate the theoretical scientific principles into the mode of application in the form of observable phenomena. This event led the students from the realms of theory into the arena of practicum.

The students displayed their creative scientific potential in diverse arenas revolving around the themes of contemporary significance namely agriculture and food security, sources of energy and their conservation, transport and communication, disaster management, health, robotics and engineering sciences.

On the same day intra college exhibition was held on the theme 'The world of Insects'. Around 4300 students from various schools were present in the exhibition. Dr V T Sannaveerappanavar, associate professor, Dept of Agricultural entomology exhibited a wide range of insects and also shared his knowledge about the wide range of the species. Students were mesmerized by the vast diverse collection of the insect species.

On the whole, the science exhibition was a great learning experience for both the students and teachers alike as it enriched our knowledge through the blooming projects of our young minds.
