

Analytical Inquest

The Commerce Department of Soundarya Composite PU College conducted "Analytical Inquest", focusing on a questionnaire survey and statistical analysis.

Organized by Mrs. Chaitra Y.C. from the Statistics Department and Mr. Kiran Kumar, Kautilya Commerce Forum Coordinator, the event aimed to enhance students' analytical and research skills.

Through hands-on activities, students learned to design surveys, analyze data, and apply statistics to commerce-related challenges, bridging academic concepts with practical applications.

Introduction

What is Statistics?

Statistics is a branch of applied mathematics that involves the collection, description, analysis, and inference of conclusions from quantitative data. The mathematical theories behind statistics rely heavily on differential and integral calculus, linear algebra, and probability theory.
