

SCICOMM-Intercollege Science and Commerce Exhibition

SCICOMM-2024 ” Where Innovation Meets Enterprise”, an event that showcased the brilliance, creativity, and innovation of our students which was held on 29th November 2024 .This exhibition was a vibrant platform for young minds to display their scientific and commercial prowess through a variety of interactive displays, projects, and demonstrations.

This year, the event was graced by the esteemed presence of Dr. Adhitya Sadhanala, a renowned scientist as our Chief Guest, whose words of encouragement and wisdom inspired all those in attendance. The event was also attended by the respected Management of our institution, who shared their valuable insights and supported the incredible efforts of our students. In the exhibition our students explored the practical applications of their academic learning which contained

Interactive Science Displays that showcased the Discovery of the latest scientific research, renewable energy solutions, robotics, and more.

Innovative Commercial Projects which helped us learn about student-run businesses, financial strategies, and entrepreneurial ideas.

Students from different colleges also presented their innovative projects, which ranged from advanced scientific experiments to ground-breaking commercial strategies.
