

## Industrial Visit Experience!

On 20th August 2025, students of Soundarya Composite PU College had the incredible opportunity to visit Lakshmi Precision Tools as part of their academic curriculum. 🏭📖

The visit aimed at bridging the gap between theoretical learning and practical industry exposure. Students were taken through a guided tour of various departments including Design, Manufacturing, Quality Control, and Tool Assembly.

- ◆ They explored modern manufacturing processes
- ◆ Witnessed CNC machining & precision tooling techniques
- ◆ Learned about lean manufacturing practices

This hands-on experience not only enriched their academic learning but also inspired them with real-world insights into the field of industrial technology.

Kudos to our young learners for their enthusiasm and curiosity!
